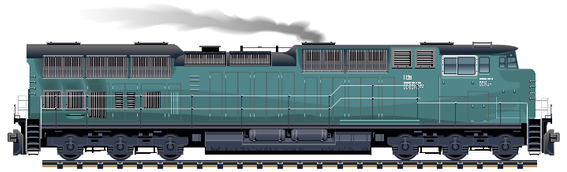
A FRESH START

eddy merckx

Eddy Merckx Bikes is completely ready for a new future. The brand, together with Ridley, will spearhead the Belgian Cycling Factory. The plan is to expertly combine the unique Eddy Merckx biek design with Ridley's rich, proven history of technological know-how.



> ***If the Merckx train took off, you had to be with it!***
>
> Eric Leman;
> alias 'Mr. Tour of Flander'

'Personally, I am very proud that we can put this iconic Belgian bicycle band back on the Map. This is why we've chosen to return Eddy Merckx Bikes to its roots - out of respect for the past, yet with a keen eye on the future.'

Jochim Aerts;
CEO Belgian Cycling Factory

TIME FOR A COMPLETE RE-BRAND

eddy merckx

Time for a new start. Time for a complete re-branding of Merckx - and its race bikes.

The bike design was thoroughly revised with one goal in mind: the creation of a unique design identity that is premium and distinctive. A true ‘Belgian Design’ statement that is completely in function of the new brand and product identity. ‘ Less is more’ was the motto used to develop this identity; noting flashy but rather a subdued elegence, which fits perfectly with the Eddy Merckx brand DNA.

> ***“He rides five kilmoeters too fast for us. I don’t know what it is, he rides even better as last year.”***
>
> Cyclist Frans Verbeeck to sports reporter Fred De Bruyne after the 1975 Tour of Flanders

Photo by Tristan Colangelo on Unsplash

eddy merckx

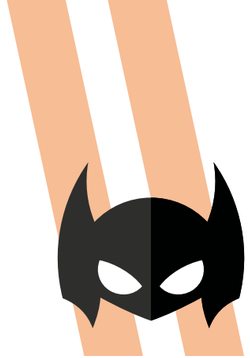
The new Eddy Merckx Bikes logo and emblem logo and emblem are completely in line with the new bike designs.

Its new style reverts back to its roots, without going retro. It is instead a modern day version of the iconic Eddy Merckx bicycle brand, where its rich history is solidly retained.

THE HERO IN EVERY CYCLIST

The unparalleled career of Eddy Merckx was the source of inspiration for the band DNA of Eddy Merckx Bikes. It is not only his achievemtns as the best cyclist of all time that are inspiring, but also his career as a successful race bike creator. Perseverance and authenticity form the core of the brand and are completely in line with his personality.

eddy merckx



Eddy Merckx is the ultimate hero, the best bike racer OF ALL TIME. This unrivaled heroism is uniquw in the bike racing industry. And that is what Eddy Merckx Bikes wants to play up to its fullest in its brand communication.
With an Eddy Merckx race bike, every cyclist can discover the hero from within. This goes for every single rider - from seasoned Gran Fondo racer to recreational cyclist. In other words: ***We could be heroes.***

> ***“I actually copied Merckx. He was my ‘big, big idol’. I was just as maniacally obsessed with racing.”***

Freddy Maertens;
2x Wold Champion
and multiple race winner

WE PREFER FRAMES RATHER THAN COLLECTIONS

Eddy Merckx Bikes produces premium race bikes with the unique combination of heritage and performance. These race bikes will be released on the market the moment they are completely ready. Targeted model launches will replace the classic year collections. Carbon and steel form the basic materials for frames, and are assembled with the top brands only.

The model names for the carbon race bikes remain linked to memorable victories from Eddy's rich career. For teh steel bikes, we've grabbed the iconic model names used while Eddy ran his bike factory.

eddy merckx

We resolutely opt for a ***'best of both worlds'*** approach. Eddy Merckx race bikes are the result of a perfect synergy between the heritage of this iconic bicycle brand and the high-tech insights of the Ridley R&D department.

We also want Merckx riders to have full freedom in their choice of design. The 'MyMerckx' customization program offers the possibility to combine different colors within the bike design concept of a certian model. In addition, it is possible to opt for signatures and branding details from the deep history of the Eddy Merckx bicycle Factory.

> ***"Eddy saw everything. For instance, if you altered your (bike) position by 2 millimeters. He made his teamates regulary change position. You had to be quite strong and confident to refuse and say 'I leave it alone'."***
>
> The late Jos Huysmans; teamate, sports direcor,
> Merckx bicycle factory employee and friend

sanremo76 DISC ULTEGRA

Eddy Merckx competed in Milan-San Remo 10 times, winning seven of them. Yet another unique record of his. His last victory at this event was in 1976. La Primavera is recognized as a sprinters classic, which is what links it to the speedy SanRemo76.

lavaredo68

DISC ULTEGRA MIX

The name of this endurance Gran Fondo race bike is linked to the 1968 Giro - the Tre Cime di Lavaredo stage, in particular. When Eddy reached teh foot of the final climb, not only was he in the middle of major blizzard but also a full 10 minutes behind the lead group. It was there that he began the most impressive climb of his carreer. When he crossed the finish line in victory, he proved to the world that he is not only a strong sprinter but a future Tour winner.

wallers73

DISC ULTEGRA MIX

The 1973 Paris-Roubaix experienced hellish weather conditions, where only 35 of the 135 riders reached the finished. Seperating winner Eddy Merckx and the 35th rider in the Hell of the North was a whopping 36 minutes. The Wallers73 endurance race bike will come in handy, especially on the Forest of Wallers' legendary cobblestones.

strasbourg71

DISC FORCE 1

During the 1971 Tour de France, Eddy Merckx won the overall classification as well as the tricky second stage to Strasbourg. It ended on a gravel road where Merckx narrowly beat Roger De Vlaeminck in a sprint. That's why we link this win to our carbon gravel bike.
